

Pursuant to the Article 23, first paragraph, indent 14 of the Statute of the University of Novo mesto Faculty of Business and Management Sciences, No. FPUV 23/2012, the Senate of the University of Novo mesto Faculty of Business and Management Sciences adopted on 28 September 2017 and supplemented on 25 October 2019 the following

RULES ON THE PREPARATION AND DEFENCE OF DOCTORAL DISSERTATION

1. GENERAL PROVISIONS

Article 1

These Rules regulate the preparation and defence of the doctoral dissertation (hereinafter referred to as dissertation).

Article 2

In order to obtain the PhD degree, the candidate must complete the necessary study obligation according to the study programme and successfully defend the dissertation.

The dissertation is a written scientific work of the candidate.

The dissertation must be a result of an independent research work of the candidate, containing an original scientific contribution of the candidate to the relevant scientific discipline.

Article 3

All documents generated during the preparation and presentation of the dissertation must be written in the Slovene language. Abstracts, as regulated with these Rules, should be written in the English or German language. The defence takes place in the Slovene language.

Eventual exceptions are decided upon by the Senate on the basis of preliminary and legitimate request of the candidate.

Language correctness of documents is the responsibility of the candidate.

Article 4

All provisions of these Rules referring to the *mentor* shall apply *mutatis mutandis* to the *co-mentor*.

Members of Committees and mentors must not be akin to or in affinity with the candidate up to and including the third degree.

Masculine expressions in the original Slovene version of these Rules are considered neutral and are used for both genders equally.

2. PUBLIC PRESENTATION OF THE DISPOSITION OF DISSERTATION

Article 5

In concordance with the study programme, for advancement from the 1st to the 2nd year, the candidate is obliged to successfully accomplish a public presentation and defence of the disposition of dissertation, which is to be registered with the Senate, at the Doctoral Seminar.

Article 6

The dissertation topic is the main subject of the written scientific work, which the candidate defines in the disposition.

The dissertation disposition is a draft of the dissertation, comprising 15 to 20 pages and contains:

1. title of the dissertation,
2. introduction,
3. theoretical background,
4. problem statement and objectives,
5. hypotheses and/or research questions,
6. research methods (sample, instrumentation, procedures),
7. the expected original scientific contribution, and
8. basic literature (at least 40 units in the Slovene and foreign language).

3. MENTOR

Article 7

As a rule, the candidate acquires the mentor by themselves, as well as a potential co-mentor, if the topic is interdisciplinary. In doing so, they may consult with the Dean or the Head of the Doctoral Seminar. Mentor monitors the research work of the candidate during preparation of the dissertation, gives professional advice, and cares for the proper scientific level of the dissertation.

The mentor is a higher education teacher, possessing at least the title of Assistant Professor, fulfilling the following conditions:

1. is a Course Lecturer at the doctoral study programme. If there are no habilitated higher education teachers for the proposed topic at the Faculty, the mentor may also be a higher education teacher from another higher education institution, habilitated according to standards, which should at least be equal to the standards of the Faculty. The Faculty and the mentor conclude a contract agreement after the topic, disposition and mentor have been confirmed by the Senate.
2. has already been a mentor to at least two completed Master's thesis, with the exception of a higher education teacher who demonstrates outstanding achievements in research (citation index, heading of projects),
3. has achieved at least 130 points according to SICRIS in the last five (5) years.

The mentor is appointed by the Senate.

Article 8

If the event of a serious illness or death of the mentor, the candidate is assigned another mentor, who must be appointed in the same manner as the original mentor.

If there is no corresponding new mentor and the work is in the final stage, the candidate may, in agreement with the Senate, complete the dissertation on their own. In this case, the evaluation committee for dissertation must consist of at least 5 members.

4. REGISTRATION AND CONFIRMATION OF THE DISSERTATION TOPIC AND APPOINTMENT OF THE MENTOR

Article 9

The candidate can register the topic and disposition of the dissertation as soon as they fulfil the conditions, defined in the study programme, for advancement from the 1st to the 2nd year, i.e. especially the conditions listed in the Article 5 of these Rules.

Article 10

The candidate registers the topic and the dissertation using a special form (Form DD1), which is an integral part of these Rules, and encloses the following documents:

1. the proposed mentor's consent (Form DD2),
2. the proposal of the disposition of doctoral dissertation,
3. evidence of compliance with the conditions for registration (confirmation of completed obligations and Form DD7).

Article 11

The candidate submits the application for the topic and disposition of dissertation to the Student Affairs Office, namely one copy in written and one in electronic form.

Article 12

Upon the candidate's application for the topic and disposition of dissertation, the Senate appoints a *Committee for assessing the suitability of the topic and disposition of dissertation* (Form DD3) and from the three of its members designates its Chairperson.

Members of the Committee are habilitated higher education teachers or scientific researchers in the field of the proposed dissertation. At least one member of the Committee must be chosen from among the teachers and scientific researchers from another higher education institution.

If the proposed dissertation topic is interdisciplinary or if the research within the scope of dissertation needs to be performed at a foreign higher education institution, the Committee can have four members.

If the dissertation topic examines aspects of more than one academic discipline, the composition of the Committee must ensure an interdisciplinary approach.

The proposed mentor cannot be a member of the Committee for assessing the suitability of the topic and disposition of dissertation. Alternatively, they can be invited to a

detailed presentation of the topic and disposition of dissertation.

The Dean sends a decision on the appointment of the Committee, a proposal for the disposition of dissertation, and documentation for the preparation of the assessment to all members of the Committee for assessing the suitability of the topic and disposition of dissertation.

If the designated member refuses to participate in the Committee for assessing the suitability of the topic and disposition of dissertation, they must, within 5 working days of the receipt of the decision, inform the dean about the refusal in writing; the dean then gives the initiative to the Senate to appoint a new member.

Article 13

The Committee for assessing the suitability of the topic and disposition of dissertation assesses the suitability of the proposed topic (whether the topic and the research questions explored by the candidate in the dissertation give enough opportunity for an independent and original contribution to the relevant scientific discipline).

The Committee for assessing the suitability of the topic and disposition of dissertation can, during the review of the disposition, present the candidate with obligatory suggestions for its improvement. The candidate submits the corrected disposition to the Committee within one (1) month after receipt of the proposal from the Committee.

The Committee for assessing the suitability of the topic and disposition of dissertation should prepare its assessment within one (1) month of its appointment. In the event that the candidate was provided with obligatory suggestions for improving the disposition, the assessment should be prepared within two (2) months of the Committee's appointment. The assessment and the opinion of the Committee are submitted to the Dean, who puts it in the agenda of the session of the Senate of the Faculty.

Article 14

The Committee for assessing the suitability of the topic and disposition of dissertation submits its assessment in the form of a report, taking into account all points mentioned in the Form DD4.

The Committee for assessing the suitability of the topic and disposition of dissertation submits a joint assessment, which is signed by all the members, however, each member has the right to submit a separate opinion.

If at least one of the members of the Committee for assessing the suitability of the topic and disposition of dissertation is a foreigner, the report shall be submitted in both Slovene and the relevant foreign language, except if the member gives a statement of fluency in the Slovene language.

In the event of a positive assessment of the topic and disposition of dissertation, the Committee for assessing the suitability of the topic and disposition of dissertation forwards its report to the Senate and suggests its approval and appointment of a mentor and possible co-mentor.

In the event of a negative assessment of the topic and disposition, the Committee for assessing the suitability of the topic and disposition of dissertation forwards its report to the Senate and suggests the procedure to be stopped.

Article 15

The Senate at its first session following the receipt of the Committee for assessing the suitability of the topic and disposition of dissertation report discusses the report and on its basis adopts a decision on approving the topic and disposition of the dissertation, and on the appointment of the mentor and a possible co-mentor, or on stopping the procedure.

The decision on approving the topic and disposition of dissertation and the appointment of a mentor needs to state a deadline for submission of the dissertation, allowing the maximum of four (4) years from the date on which the Senate adopted the decision.

The Senate informs the candidate, the mentor, the possible co-mentor, and the Student Affairs Office about its decision.

If the candidate fails to submit the dissertation proposal within a period laid down in the decision approving the dissertation topic and disposition, they may submit a deadline extension request to the Senate of the Faculty prior to the expiry of the deadline. The Senate can extend the deadline for a maximum of one (1) year.

If the candidate fails to submit the dissertation proposal within a period laid down in the decision approving the dissertation topic and disposition, and does not apply for a deadline extension before the deadline, it is considered that they withdrew their topic registration.

5. DOCTORAL DISSERTATION PREPARATION

Article 16

On the basis of approved dissertation topic and disposition, the candidate prepares the dissertation proposal in accordance with the mentor's instructions, in which case its contents may be, in accordance with the instructions of the mentor and the results of the research, to a lesser extent different from the approved disposition.

In the case of preparing the dissertation in the English language or any other foreign language, an introduction and extensive summary (at least 10% of the doctoral dissertation) must be prepared in the Slovene language.

The candidate must, prior to handing in the dissertation proposal, fulfil the conditions, as stated in the following articles:

- accomplished all study obligations and
- published at least one article from the contents of the dissertation in the relevant professional or scientific publications which are specified in the Appendix 1. Evidence of the publication the candidate submits to the Student Affairs Office (DD8 Form).

Article 17

Candidate submits the dissertation proposal in five (5) unbound copies and one (1) copy

in electronic form (CD) to the Student Affairs Office. The proposal also contains:

1. the candidate's declaration of authorship and non-infringement of copyrights and intellectual property rights (Form DD5),
2. the mentor's declaration on doctoral dissertation proposal suitability (Form DD6),
3. evidence that the candidate published at least one article from the contents of the dissertation in the relevant professional or scientific publications which are specified in the Appendix 1 (Form DD8),
4. a statement of the mentor on the verification of the candidate's doctoral dissertation proposal using the anti-plagiarism software, and the submitted report to the Student Affairs Office (Form DD9).

6. ASSESSING THE SUITABILITY OF THE DOCTORAL DISSERTATION PROPOSAL

Article 18

At its first meeting (within 30 days from receiving the dissertation proposal), the Senate of the Faculty appoints the Committee for the assessment of doctoral dissertation proposal (Form DD11).

The Committee for the assessment of doctoral dissertation proposal has at least 3 members and consists of habilitated higher education teachers or scientific researchers, who hold a doctoral degree, and are scientifically active in the relevant scientific field or discipline in which the candidate is obtaining a PhD. One member of the Committee for the assessment of doctoral dissertation proposal must be from another higher education institution or organisation.

One of the Committee for the assessment of doctoral dissertation proposal members, who is not the candidate's mentor, is the Chairperson of the Committee. The Chairperson coordinates the work of the Committee.

If the dissertation topic examines aspects of more than one academic discipline, the composition of the Committee must ensure an interdisciplinary approach.

The candidate's mentor cannot be a member of the Committee for the assessment of doctoral dissertation proposal-

Article 19

The Dean shall submit the decision on appointment, the dissertation proposal and dissertation evaluation guidelines to all the members of the Committee for the assessment of doctoral dissertation proposal.

If a member of the Committee for the assessment of doctoral dissertation proposal is unwilling to participate, they must inform the Dean (in written form) within 5 days from obtaining the decision on appointment.

Article 20

The Committee for the assessment of doctoral dissertation proposal has the following tasks:

1. to review the doctoral dissertation proposal,
2. to provide binding proposals for its improvement to the candidate, who must

supplement and correct the doctoral dissertation proposal no later than one (1) month from the receipt of the binding proposals of individual members of the Committee,

3. to review the supplemented and corrected proposal of the doctoral dissertation,
4. to submit separate written reports on the evaluation of the proposal for a doctoral dissertation.

Each member of the Committee for the assessment of doctoral dissertation proposal must write a separate report.

Each member of the Committee for the assessment of doctoral dissertation proposal examines the dissertation proposal within the required period. The report should be submitted to the Dean in a sealed envelope marked "Ocena ustreznosti predloga doktorske disertacije 'naslov doktorske disertacije' – ne odpiraj!" ("PhD Thesis Evaluation, 'thesis title' – do not open!").

Foreign members of the Committee for the assessment of doctoral dissertation proposal write the report in the relevant foreign language.

The Committee for the assessment of doctoral dissertation proposal should prepare its assessment within three (3) months of its appointment.

Article 21

Evaluation report on the suitability of the dissertation proposal must include (Form DD12):

1. the title "Assessment of the doctoral dissertation proposal" (name and surname of the candidate) with the title (the title of the doctoral dissertation proposal);
2. analysis of the structure of the doctoral dissertation proposal and of the research methods used or the methodology;
3. evaluation of the scientific relevance and the corresponding complexity of the dissertation submitted to the doctoral level;
4. evaluation of the suitability, originality and actuality of the dissertation proposal, validity of its argumentation and accordance of the topic with the doctoral dissertation proposal;
5. evaluation of the stylistic and linguistic level of the dissertation, and
6. assessment of the proposal for a doctoral dissertation suitability.

Article 22

After receiving the reports from all Committee for the assessment of doctoral dissertation proposal members, the Dean examines them at the first forthcoming session of the Senate of the Faculty.

The Senate accepts or rejects the dissertation proposal.

If all members of the Committee for the assessment of doctoral dissertation proposal indicated in their reports that the doctoral dissertation proposal should be accepted, the Senate may not reject the proposal.

In the event that two members of the Committee for the assessment of doctoral

dissertation proposal indicated in their reports that the doctoral dissertation proposal should be accepted, the Senate shall decide by majority vote on acceptance or rejection.

In the event that two or three members of the Committee for the assessment of doctoral dissertation proposal indicated in their reports that the doctoral dissertation proposal should be rejected, the Senate rejects the doctoral dissertation proposal.

The candidate cannot re-submit the rejected dissertation proposal in order to obtain the PhD.

7. CONDITIONS FOR THE DEFENCE OF THE DOCTORAL DISSERTATION

Article 23

If the dissertation proposal is accepted, the Senate on the same session appoints the Committee for the defence of doctoral dissertation, as well as the Chairperson (Form DD13). The Committee has up to 5 members. As a rule, it consists of members of the Committee for the assessment of doctoral dissertation proposal, and the mentor.

The Committee for the defence of doctoral dissertation's Chairperson is one of the members of the Committee, who is not the candidate's mentor. The Chairperson coordinates the work of the Committee for the defence of doctoral dissertation and chairs the dissertation defence. The candidate's mentor is the rapporteur on the doctoral dissertation.

The Dean submits the decision on appointment of the Committee for the defence along with the examination at the defence guidelines, defined in the Article 27 of the Rules, to all committee members.

If an appointed member of the Committee is unwilling to cooperate, he/she must inform the Dean in writing within 5 working days from receipt of the decision. The Dean is bound to propose to the Senate that a new member is appointed.

Article 24

After the appointment of the Committee for the defence of doctoral dissertation, the Dean, based on the Committee proposal and in agreement with the candidate, determines the date, time and place of the dissertation defence.

As a rule, the defence must take place within six (6) months from the date on which the candidate fulfils all conditions, stated in Article 25 of these Rules.

Article 25

Within three (3) months after the appointment of the Committee for the defence of doctoral dissertation, and after the technical review, the candidate must submit to the Student Affairs Office up to ten (10) identical hard bound copies of the doctoral dissertation (the exact number of copies is determined by the Dean), bound with copper-coloured paperbacks, and one (1) identical copy in electronic version (on CD or DVD media in a PDF format). The bound copies must be printed on both sides. Upon handing in the doctoral dissertation copies, the candidate needs to enclose the following documents:

1. a statement of the copy editor of the doctoral dissertation on copy editing in the mother tongue (Form DD14),
2. a statement of the copy editor of the doctoral dissertation on copy editing the abstract, keywords and title of the doctoral dissertation written in a foreign language (Form DD15),
3. a statement of identity of the printed and electronic versions of the doctoral dissertation, on a limited transfer of copyright material on the dissertation, and on the publication of personal data used for the completion (Form DD16), and
4. confirmation of the technical review of doctoral dissertation (Form DD17).

Technical review is performed by the Student Affairs Office prior to bounding the copies, based on the Form DD17. The Student Affairs Office performs technical reviews during office hours on working days, except on the first five (5) days in a month, provided for handing in dissertations.

Article 26

Announcement of the defence (including candidate's name and surname, title of the dissertation, time and location of the public defence) is published at least seven (7) days before the scheduled defence date on the Faculty's bulletin board, and its website. The announcement must also state that the dissertation can be publicly accessed at the head secretary's office and that the defence is public.

Public access of the dissertation is enabled by granting access to the dissertation proposal in the time from the announcement referred to in the first paragraph of this article until the defence.

8. DEFENCE PROCEDURE

Article 27

The defence of the dissertation is public.

Members of the Committee for the defence of doctoral dissertation meet briefly before the defence procedure. Chairperson of the Committee for the defence of doctoral dissertation appoints a member to draw up the minutes of the defence. In addition, the Chairperson informs the members about the procedure and invites them to express any reservations or objections concerning the dissertation.

In the event of reservations, on the basis of which the PhD degree could be revoked in accordance with Article 34 of these Rules, the Committee cancels the examination and informs the Senate. The Senate decides whether the dissertation proposal should be rejected or the candidate should correct the found discrepancies. The Senate also sets the deadline for correction. Accordingly, the procedure is resumed in accordance with Article 20 of these Rules.

If there no objections are given, the defence procedure begins at the set time. The Chairperson presents the candidate, their scientific and research background, and the fulfilled requirements for the dissertation defence.

Chairperson of the Committee for the defence of doctoral dissertation reads the summary of the report by the Committee for the assessment of doctoral dissertation

proposal, the decision of the Senate on the dissertation acceptance, and the decision of the Senate concerning the appointment of the Committee for the defence. After that, the Chairperson invites the candidate's mentor, who is the rapporteur on the dissertation, to present their report on the doctoral dissertation proposal.

On the invitation of the Chairperson, the candidate orally presents the theoretical background, problem statement and objectives, hypotheses and/or research questions, research methods, and the main scientific results of the doctoral dissertation. The available time for the presentation is from 45 to 60 minutes, and different audio-visual enhancements are used.

After the candidate's presentation, the Chairperson invites members of the Committee for the defence of doctoral dissertation to comment on the defence, to ask for clarification, and set some questions, which should be presented in written form. With the approval of the Chairperson, other people present at the presentation may also ask questions.

The candidate has the right to 30- to 45-minute break to prepare answers to the questions.

After the break, the candidate answers the questions, however, not longer than 60 minutes.

All questions shall be recorded in the minutes of the examination proceedings, including names and surnames of the questioners (Form DD18).

After the candidate has answered all questions, Chairperson of the Committee for the defence of doctoral dissertation closes the proceedings and invites the Committee members to consult privately in order to hold a secret vote on whether the candidate has successfully defended their thesis. During the private consultation, the Committee members cast their vote on the defence success. Only two outcomes are possible: "The candidate has successfully defended their thesis" or "The candidate has unsuccessfully defended their thesis". An abstention or a spoilt ballot is considered a favourable vote. The outcome is recorded in the minutes. Integral parts of the doctoral dissertation defence minutes are:

1. reports of members of the Committee for the defence of doctoral dissertation,
2. decision of the Senate on accepting the dissertation proposal,
3. decision of the Senate on the nomination of the Committee for the defence of doctoral dissertation,
4. mentor's report on the doctoral dissertation proposal, and
5. questions of the members of the Committee and other people present.

The Chairperson publicly announces the decision of the Committee and closes the defence proceedings. All members of the Committee for the defence of doctoral dissertation sign the minutes.

Article 28

By announcing the doctoral dissertation defence as successful, the doctoral candidate is awarded the scientific title doktor/doktorica znanosti (PhD).

Article 29

Within three (3) working days, the Chairperson of the Committee for defence of the dissertation delivers the defence proceedings minutes, including all the required documentation, to the Dean.

Article 30

If the candidate fails to appear at the defence, it is considered that they have withdrawn from it. The event is recorded in the minutes. All members of the Committee for the defence of doctoral dissertation sign the minutes, and the Chairperson delivers it to the Dean.

In the case of justifiable reasons for the candidate's absence, a new date and place of the defence are set, otherwise the Committee for the defence of doctoral dissertation's decision on the withdrawal from the defence is confirmed.

The resignation from the defence is considered an unsuccessful defence of the dissertation proposal.

9. ISSUANCE OF THE CERTIFICATE OF DOCTORAL GRADUATION AND PROMOTION OF THE NEW DOCTORS / PhD GRADUATES

Article 31

The certificate of doctoral graduation is issued to the doctoral candidate within seven (7) days upon the successful defence of the dissertation (Form DD19).

In case of an unsuccessful defence, the candidate receives a written notification.

Article 32

A ceremonial promotion of the new doctors / PhD graduates is performed by the Dean of the Faculty.

Article 33

The Faculty keeps a special Registry Book of PhD graduates (Knjiga doktorjev znanosti).

10. REVOCATION OF DOCTORAL DEGREE

Article 34

The PhD degree may be revoked in accordance with the Rules of professional and scientific title revocation procedure of the University of Novo mesto Faculty of Business and Management Sciences.

Decision on the revocation of doctoral title is published in the Official Gazette of the Republic of Slovenia, or the validity of the issued doctoral diploma is cancelled.

11. TRANSITIONAL AND FINAL PROVISIONS

Article 35

For candidates who have registered the topic and disposition of the dissertation prior to the adoption of these Rules, the Rules applicable at the time of registration of the topic and disposition, except for the provisions of Articles 28 and 31 of these Rules, shall apply.

Article 36

Candidates who have successfully defended the dissertation prior to the adoption of these Rules, shall apply the scientific title doktor/doktorica znanosti on the day these Rules enter into force.

Article 37

These Rules shall enter into force the following day after their adoption. The Rules are published on the Faculty's website.

Novo mesto, 25 October 2019

Dean:
Assoc. Prof. Dr. Jasmina Starc

The English version is translation of the original in Slovene for information purposes only. In case of a discrepancy, the Slovene original will prevail.

The following forms are integral parts of the Rules:

- Appendix 1: List of publications.

- DD1: Doctoral dissertation topic and disposition registration,
- DD2: Consent of the proposed mentor,
- DD3: The decision on appointment of the Committee for assessing the suitability of the topic and disposition of dissertation,
- DD4: Report of the Committee for assessing the suitability of the topic and disposition of dissertation,
- DD5: Doctoral candidate's declaration on authorship and non-infringement of copyrights or intellectual property rights,
- DD6: Mentor's declaration on doctoral dissertation proposal suitability,
- DD7: Confirmation of a public presentation and defence of doctoral dissertation proposal at the doctoral seminar,
- DD8: Confirmation on publication of at least one article from the contents of doctoral dissertation in the relevant professional or scientific publication before delivering the doctoral dissertation proposal,
- DD9: Statement by the candidate's mentor on the verification of the candidate's doctoral dissertation proposal using the anti-plagiarism software,
- DD10: Doctoral dissertation structure,
- DD11: Decision on appointing the Committee for the assessment of doctoral dissertation proposal,
- DD12: Evaluation report on the suitability of the dissertation proposal,
- DD13: Decision on appointing the Committee for the defence of doctoral dissertation,
- DD14: Declaration on copy editing
- DD15: Declaration on copy editing (foreign language: abstract, keywords and title of doctoral dissertation),
- DD16: Statement of identity of the printed and electronic version of the doctoral dissertation, of a limited transfer of copyright material to the dissertation, and of the publication of personal data used for the completion of studies,
- DD17: Confirmation of the technical review,
- DD18: Minutes on doctoral dissertation defence,
- DD19: The certificate of doctoral graduation.
